DETAILED ACTION

Allowable Subject Matter

1. Claims 1-12 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: claim 1 recites, inter alia, "an initialization test pin included in the JTAG test terminal; a reset pin of the processor, and a semiconductor device connected between the initialization test pin and the reset pin, wherein the initialization test pin, the reset pin, and the semiconductor device are arranged to enable forward current to flow from the initialization test pin to the reset pin through the semiconductor device."

The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include the above limitations. Although Larson (U.S. 6,697,387) discloses a Apparatus for multiplexing signals through I/O pins and Kwon et.al. (U.S. 6,556,504) disclose a Nonvolatile semiconductor memory device and data input/output control method thereof, they do not disclose the above-mentioned limitations.

Conclusion

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
